1 Plaintiffs ASUS Computer Int'l and ASUSTEK Computer Inc. ("ASUS") move to exclude
 2 Defendants InterDigital, Inc., InterDigital Communications, Inc., InterDigital Tech. Corp., IPR
 3 Licensing, Inc. and InterDigital Patent Holding, Inc. ("IDC") from offering improper legal opinions.

4 Through expert opinion, IDC attempts to stilt far-fetched legal theories and strained FRAND
 5 contentions. "A layman, which is what an expert witness is when testifying outside his area of
 6 expertise, ought not to be anointed with ersatz authority as a court-approved expert witness for what
 7 is essentially a lay opinion." *White v. Ford Motor Co.*, 312 F.3d 998, 1008-09 (9th Cir. 2002),
 8 *opinion amended*, 335 F.3d 833 (9th Cir. 2003). As detailed below, IDC's experts improperly opine
 9 on legal matters, opine on decisions that are not law even in the jurisdiction in which they originally
 10 issued, offer hedonic regression analysis premised (mistakenly) on data that its experts testified
 11 would be inappropriate, opine on general economic theory that they do not apply to the facts of this
 12 case, and testify outside their expertise. IDC experts each simply reach too far.

13 **A. Legal Standard**

14 Federal Rule of Evidence 702 provides that a qualified expert may testify if "(a) the expert's
 15 scientific, technical, or other specialized knowledge will help the trier of fact to understand the
 16 evidence or to determine a fact in issue; (b) the testimony is based on sufficient facts or data; (c) the
 17 testimony is the product of reliable principles and methods; and (d) the expert has reliably applied
 18 the principles and methods to the facts of the case." Fed.R.Evid. 702; *Daubert v. Merrell Dow*
 19 *Pharm., Inc.*, 509 U.S. 579, 589-90 (1993). Thus, expert testimony may only be admitted into
 20 evidence if (1) the witness qualifies as an expert; (2) the methodology by which the expert reaches
 21 his or her conclusions is sufficiently reliable; and (3) the expert's testimony will assist the trier of
 22 fact to understand the evidence or determine a fact in issue. *Id.*. IDC must prove, by a preponderance
 23 of the evidence, that Dr. Layne-Farrar's, Dr. Putnam's, and Dr. Huber's testimony meets the
 24 reliability requirements of Rule 702. *Id.* at 592 n.10; FRE 702, Advisory Committee Notes, 2000
 25 Amendment. For the reasons set forth below, several portions of those experts' proffered testimony
 26 do not.

27 **B. Dr. Layne-Farrar's Improper Opinions**

28 ASUS moves to exclude Dr. Layne-Farrar's testimony on third-party technical analyses,

1 ASUS's licensing with third parties, and volume discounts because her testimony fails to satisfy the
 2 prerequisites set forth in the Federal Rules of Evidence, as demonstrated below.

3 **1. Improper Character Evidence Regarding [REDACTED]**

4 The Court should exclude IDC's attempt to use Dr. Layne-Farrar to introduce improper
 5 character evidence on ASUS's licensing with third party SEP holders. At issue in this Motion is [REDACTED]
 6 [REDACTED]
 7 [REDACTED]

8 [REDACTED] Ex. 2,¹ Layne-Farrar RR ¶¶ 19, 20, 21, 375-377, Appendixes D, H. She
 9 engages in conclusory speculation [REDACTED]

10 [REDACTED] See Ex. 2, Layne-Farrar RR ¶ 20
 11 & nn. 14-15. Her opinions on this subject cite no evidence, lack in foundation, are not based on any
 12 expert analysis, and are irrelevant to the issues in this case.

13 Dr. Layne-Farrar's deposition makes clear that she came to her opinions on ASUS's third-
 14 party license negotiations [REDACTED]. She admittedly did not [REDACTED]
 15 [REDACTED] Ex. 1, Layne-Farrar Dep. Tr. at 202:10-20, 203:1-11. She

16 could not determine whether [REDACTED] *Id.*

 22 [REDACTED]
 23 [REDACTED] *Id.* at 202:10-20.

24 In addition to lacking meaningful evidentiary underpinnings, Dr. Layne-Farrar's opinions are
 25 not "the product of reliable principles and methods ... applied ... reliably to the facts of the case."
 26 Fed. R. Evid. 702(c)-(d). Nothing in her training as an economist qualifies her to evaluate whether

1 [REDACTED] Her
 2 opinions in these sections do not employ economic terms and techniques. They are attorney-style,
 3 lay factual argument that should not be given a veneer of credibility by being routed through an
 4 expert. *Stathakos v. Columbia Sportswear Co.*, No. 15-CV-04543-YGR, 2018 WL 1710075, at *5
 5 n.6 (N.D. Cal. Apr. 9, 2018) (“Opinions on legal issues are properly the subject of attorney
 6 argument, not expert testimony.”).

7 Finally, this evidence is inadmissible under other Federal Rules. See Fed R. Evid. 401 & 402.
 8 It is irrelevant, and thus inadmissible, because the case is about the licensing negotiations between
 9 IDC and ASUS, [REDACTED]. See *Daubert*, 509 U.S. at 597 (expert testimony
 10 must be “relevant to the task at hand”). The licenses with [REDACTED]
 11 [REDACTED], and Dr. Layne-Farrar does not analyze how [REDACTED]

 14 Rather than addressing any salient issue, the [REDACTED]
 15 [REDACTED]
 16 [REDACTED] *Id.* ¶¶ 20, 21. This kind of propensity
 17 evidence is barred. Fed. R. Evid. 404(a)(1) (“Evidence of a person’s character or character trait is not
 18 admissible to prove that on a particular occasion the person acted in accordance with the character or
 19 trait.”). It also lacks the specificity and repetitiveness to be admissible under Rule 406’s “habit”
 20 exception, which “refers to the type of nonvolitional activity that occurs with invariable regularity.”
 21 *Weil v. Seltzer*, 873 F.2d 1453, 1460 (D.C. Cir. 1989) (district court abused discretion by admitting
 22 “habit” of “prescrib[ing] steroids to other allergy patients while representing the drugs to be
 23 antihistamines or decongestants”); see also *Simplex, Inc. v. Diversified Energy Sys., Inc.*, 847 F.2d
 24 1290, 1293-94 (7th Cir. 1988) (affirming exclusion of evidence of a company’s “late and inadequate
 25 performance of other contracts” and distinguishing “habit” cases as “involv[ing] specific,
 26 particularized conduct capable of almost identical repetition”); *Scott v. Am. Broad. Co.*, 878 F.2d
 27 386, at *3 (9th Cir. 1989) (“Rule 406 may be invoked only where a high degree of specificity and
 28 frequency of uniform response is present.”).

1 In summary, [REDACTED] serve no
 2 legitimate purpose, but only function to [REDACTED]. They do not reflect
 3 the professional analysis of an economist. Because all of these opinions are unsupported by genuine
 4 facts or data, are not the product of reliable methods used by experts in the field, and are improper
 5 and irrelevant propensity evidence, they are inadmissible and she should not be permitted to testify
 6 to the opinions in paragraphs 19-21, 375-377, and Appendixes D and H of her report. Thus, the
 7 Court should exclude Dr. Layne-Farrar from testifying about [REDACTED]
 8 [REDACTED]

9 **2. Improper Generalizations Regarding [REDACTED] to**
 10 **IDC's Conduct**

11 Dr. Layne-Farrar's generalized, irrelevant testimony [REDACTED] should be
 12 excluded. Rule 702 "assign[s] to the trial judge the task of ensuring that an expert's testimony is ...
 13 relevant to the task at hand." *Daubert*, 509 U.S. at 597. The central issue in this case is whether IDC
 14 complied with its FRAND obligations to ETSI, and the analysis of IDC's licensing program,
 15 [REDACTED], must be viewed through that lens. Yet, Dr. Layne-Farrar opines on
 16 the appropriateness of [REDACTED] as a general licensing practice and in (non-ETSI) patent
 17 pools. She provides no discernible link between these opinions and ETSI's FRAND obligations or
 18 IDC's specific conduct.

19 First, Dr. Layne-Farrar provides four justifications for [REDACTED]
 20 [REDACTED]
 21 [REDACTED]. Ex. 2, Layne-Farrar RR ¶¶ 99-110; Ex. 1, Layne-Farrar Dep. Tr. 136:22-138:12, 140:11-
 22 142:3, 144:21-145:14, 152:17-25, 155:5-157:8 [REDACTED] *see id.* 13:5-13

23 According to IDC, Dr. Layne-Farrar opines that economic
 24 justification for [REDACTED] are "(i) welfare enhancement enabling innovators to recoup their
 25 R&D investments; (ii) reduction of transaction costs; (iii) reduction of patent license monitoring and
 26 enforcement costs; (iv) enhancing wide dissemination of standards via market maker effects; and (v)
 27 aligning SDO members' incentives to increase adoption and expand output, benefiting consumers."

28 Dkt No. 258-4 at 25 (citing Dkt No. 258-6, Layne Farrar Decl. ¶¶ 27-32); *see* Ex. 2, Layne-Farrar

1 RR ¶¶ 99-110. Dr. Layne-Farrar opines that based on these justifications, [REDACTED]
 2 [REDACTED] Ex. 2, Layne-Farrar RR ¶ 109. However, Dr. Layne-Farrar
 3 economic theory for justifications is too abstract to aid the trier of fact. *Id.* ¶¶ 99-110; Ex. 1, Layne-
 4 Farrar Dep. Tr. 13:5-13, 136:22-138:12, 140:11-142:3, 144:21-145:14, 152:17-25, 155:5-157:8. Dr.
 5 Layne-Farrar does not apply the economic justifications to the facts of this case—[REDACTED]

6 [REDACTED] Federal Rule of Evidence 702 permits expert testimony only where “the expert
 7 has reliably applied the principles and methods to the facts of the case.” Fed.R.Evid. 702; *Finjan Inc.*
 8 v. *Blue Coat Sys., Inc.*, No. 13-cv-03999-BLF, 2015 WL 4272870 (N.D. Cal. July 14, 2015) (opinion
 9 lacks probative value without being tied to facts of the case) (collecting case law).

10 Separately, Dr. Layne-Farrar relies [REDACTED]
 11 [REDACTED]
 12 [REDACTED] Ex. 2, Layne-
 13 Farrar RR ¶ 109. But, it is the role of [REDACTED] in IDC’s ETSI FRAND-encumbered
 14 licensing program that is disputed as violating IDC’s FRAND obligations. *See, e.g.*, Ex. 4, Huber
 15 Dep. Tr. 63:6-67:4 ([REDACTED])
 16 [REDACTED]. Failing to tie expert opinions to the facts of this case render
 17 those opinions of little probative value. *See Daubert*, 509 U.S. at 591 (question is one of “fit” –
 18 “whether expert testimony proffered in the case is sufficiently tied to the facts of the case that it will
 19 aid the jury in resolving a factual dispute.”); *Finjan Inc.*, 2015 WL 4278270, *8 (N.D. Cal. 2015).
 20 Here, Dr. Layne-Farrar’s [REDACTED] opinions (found at, *e.g.*, ¶¶ 99-110 of her report) simply
 21 do not fit the facts at issue in this case and therefore must be excluded because they will confuse,
 22 rather than help, a jury.

23 **3. Economist’s Improper Legal Testimony Regarding Parties Arbitration**

24 Dr. Layne-Farrar’s testimony regarding the IDC-ASUS arbitration should be excluded. IDC
 25 offers Dr. Layne-Farrar as an economist. In her report, though, Dr. Layne-Farrar [REDACTED]
 26 [REDACTED]

27 [REDACTED] *See, e.g.*, Ex. 2, Layne-Farrar RR ¶¶ 13, 14-17, 31, 218, n.292, 263,
 28

1 285, 290, 320, 374, 380, 389, 416; Ex. 2, Layne-Farrar Dep. Tr. at 177:2-17. Not only is legal
 2 opinion the province of the Court, but also Dr. Layne-Farrar's opinion is legally incorrect.
 3

4 Dr. Layne-Farrar's report includes numerous examples of improper opinions [REDACTED]
 5 [REDACTED] She opines that [REDACTED]
 6 [REDACTED] .” Ex. 2, Layne-Farrar RR ¶ 13. Dr.

 13

14 “Expert testimony is not proper for issues of law.” *Crow Tribe*, 87 F.3d at 1045. “Experts
 15 ‘interpret and analyze factual evidence. They do not testify about the law....’ ” *United States v.*
 16 *Brodie*, 858 F.2d 492, 496 (9th Cir.1988), *overruled sub nom U.S. v. Morales*, 108 F.3d 1031 (9th
 17 Cir. 1997) (quoting *United States v. Curtis*, 782 F.2d 593, 599 (6th Cir.1986)); *see also* Fed.R.Evid.
 18 702 (“(a) the expert's scientific, technical, or other specialized knowledge will help the trier of fact to
 19 understand the evidence or to determine a fact in issue...”). In setting out the [REDACTED]
 20 [REDACTED], Dr. Layne-Farrar crosses
 21 into the province of the Court. Additionally, such prior legal opinions are inadmissible evidence and
 22 therefore cannot be opined on by experts at trial. *Smart Mktg. Grp., Inc. v. Publications Int'l, Ltd.*,
 23 No. 04-C-146, 2014 WL 625321, at *3–4 (N.D. Ill. Feb. 18, 2014) (rejecting prior appellate opinion
 24 as evidence and precluding experts from discussing same).

25 Indeed, by its express language, the [REDACTED] irrelevant to this proceeding on ASUS’s

4 Dr. Layne-Farrar's mischaracterizations and manipulations of the [REDACTED] demonstrate
 5 the prejudice that would befall ASUS and confusion inflicted on the jury if an expert were permitted

 10 decide the case on evidence not before it" (quoting *Coleman Motor Co. v. Chrysler Corp.*, 525 F.2d
 11 1338, 1351 (3d Cir. 1975)); *Engquist v. Oregon Dep't of Agric.*, 478 F.3d 985, 1009–10 (9th Cir.
 12 2007), 553 U.S. 591 (2008) (affirming district court's decision to exclude evidence of prior verdict
 13 against defendants); *Apple, Inc. v. Samsung Elec. Co.*, No. 12-cv-00630, 2014 WL 794328, *8-*9
 14 (N.D. Cal. Feb. 25, 2014) (excluding expert's testimony on settlement because of risk of prejudice
 15 was high and admission would undermine public policy in favor of settlements, which is akin to
 16 public policy favoring arbitration). For example, she testified that [REDACTED]

20 [REDACTED]. Compare Ex. 1, Layne-Farrar Dep. Tr. 29:23-

24 Dr. Layne-Farrar's offering of an opinion regarding the parties' [REDACTED]
 25 [REDACTED] is improper and should be excluded.

26 **4. Economist's Improper Reliance on [REDACTED] of Experts
 27 That Submitted No Report**

28 Dr. Layne-Farrar improperly presents technical expert opinions of third parties who did not
 submit expert reports in compliance with Federal Rule of Procedure 26 and whose work was not

1 carried out for her or any other IDC expert witness in this case. Accordingly, the Court should find
 2 such testimony improper and unreliable.

 22 thereby suggesting “the usefulness of cross-examination”). IDC’s [REDACTED] do not do so.

23 Federal Rule of Civil Procedure 26(a)(2)(B) required the parties to provide a written report

 27 than June 12, 2018, under Fed. R. Civ. P. 26(a)(2)(D). Federal Rules of Evidence 703 does not
 28 permit an expert witness to circumvent the rules of hearsay by testifying to the opinions of other

1 experts. See *Tokio Marine & Fire Ins. Co. v. Norfolk & Western Ry. Co.*, 172 F.3d 44 (4th Cir. 1999)

 20 Layne-Farrar’s testimony on [REDACTED], as provided in paragraphs
 21 141-146 and footnotes 203 and 401 of her report.³

22 [REDACTED] **Economist’s Improper Legal Opinions on [REDACTED]**
 23 [REDACTED]

24 Dr. Layne-Farrar opines on [REDACTED]
 25 [REDACTED]

26 ² Dr. Layne-Farrar does not rely on IDC’s technical expert reports in the opinions challenged here.
 27 ³ ASUS has endeavored to specify each of the instances of the improper opinions in the reports.
 28 However, this Motion should be understood to seek preclusion of the identified expert subject matter
 altogether, including any additional instances of the same subject matter not identified by individual
 paragraph number.

1 [REDACTED]. For instance, Dr.
 2 Layne-Farrar that IDC “[REDACTED]

 5 [REDACTED]
 6 [REDACTED]”); *id.* ¶¶ 70, 151-54; Appendix
 7 E (opining [REDACTED]).

8 For the reasons detailed in in Section D.1 below, the Court should preclude Dr. Layne-Farrar
 9 from opining on [REDACTED] because (1) it is improper for experts to opine on the law, (2)
 10 the ITC [REDACTED], essentially vacating the
 11 decision; (3) [REDACTED] precludes its
 12 reliance on them now.

13 C. Dr. Putnam’s Improper Opinions

14 IDC offers Dr. Putnam as an economics expert. ASUS moves to exclude Dr. Putnam’s expert
 15 testimony on [REDACTED]
 16 [REDACTED] because his testimony fails to satisfy the
 17 prerequisites set forth in the Federal Rules of Evidence as demonstrated below.

18 1. Economist’s Improper Legal Opinions on International Trade Commission 19 Decisions

20 Dr. Putnam expends significant effort grafting onto this case vacated Initial Determinations
 21 from IDC’s prior ITC investigations to which ASUS was not a party. Ex. 7, Putnam RR at ¶¶ 349,
 22 361-87, FRAND Appendix ¶¶ 137-161, 167. As detailed below, the Court should exclude such
 23 opinions because (1) it is improper for experts to opine on the law, (2) the ITC did not adopt the
 24 ALJ’s “initial” decisions on which IDC relies, essentially vacating the decision; (3) IDC’s refusal to
 25 produce discovery relating to these ITC proceedings precludes its reliance on them now.

26 Dr. Putnam interprets the “initial” determinations in (1) ITC Inv. No. 337-TA-800 (the “800
 27 Investigation”); (2) ITC Inv. No 337-TA-868 (the “868 Investigation”) and (3) ITC Inv. 337-TA-613
 28 (the “613 Investigation”). In these investigations, IDC asserted Samsung, Nokia, Huawei, and ZTE

1 infringed over 10 IDC patents. Dr. Putnam now opines [REDACTED]
 2 [REDACTED] . Ex. 7, Putnam RR
 3 ¶¶ 77-84, 361-385, FRAND Appendix ¶¶138-161; Exhibit 7. For instance, Dr. Putnam opines that
 4 the [REDACTED] *Id.* at ¶ 367. Dr. Putnam goes on to
 5 describe the allegations of the parties, interpret the initial determination's findings and holdings as
 6 [REDACTED] . *Id.* at ¶ 365-385.

7 Dr. Putnam's opinion exceeds the permissible scope of expert opinion. He improperly opines
 8 on the ITC law. "Experts 'interpret and analyze factual evidence. They do not testify about the
 9 law....'" *United States v. Brodie*, 858 F.2d 492, 496 (9th Cir.1988) (quoting *United States v. Curtis*,
 10 782 F.2d 593, 599 (6th Cir.1986)); *see also* Fed.R.Evid. 702 ("(a) the expert's scientific, technical, or
 11 other specialized knowledge will help the trier of fact to understand the evidence or to determine a
 12 fact in issue..."). On this basis alone, Dr. Putnam should not opine on the holdings of the 613, 800,
 13 and 868 ITC investigations.

14 By way of background, IDC filed multiple complaints against multiple parties, including
 15 Nokia, ZTE, Samsung, and LGE ("Respondents"). ASUS was not a party in those investigations and
 16 [REDACTED]. Respondents urged the ITC that Public Interest should
 17 preclude an exclusion order prohibiting import of infringing products. In those investigations, the
 18 respondents argued that IDC's ETSI's FRAND commitments satisfied the ITC's Public Interest
 19 defense, were the Commission to find patent infringement. In all three ITC investigations, the
 20 Commission's *final* decision held no party infringed the asserted patents.

21 Important to this case, Dr. Putnam relies on preliminary, Administrative Law Judge (ALJ)
 22 "initial determinations." That is important because the ITC did not adopt the ALJ's public interest
 23 recommendation in any of the Investigations on which he relies. Specifically, the Commission
 24 determined to review either the public interest portion or the entire initial decision in the 613, 800,
 25 and 868 investigations, and ultimately determined not to adopt the ALJ's public interest
 26 recommendation. **In the 613 Investigation**, the Commission "determined to review the RID's public
 27 interest findings," and the Commission's final decision ruled that Commission's "findings of
 28 noninfringement render any consideration of public interest issues moot." Ex. 8, *In re Certain 3G*

1 *Mobile Handsets*, 337-TA-613 (Remand), Notice of Comm'n Dec to Review (June 25, 2015)
 2 (ordering review of public interest); Ex. 3, *In re Certain 3G Mobile Handsets*, 337-TA-613
 3 (Remand), Comm'n Op. at n27, (Sept. 21, 2015). **In the 800 Investigation**, the Commission
 4 “determined to review the final ID in its entirety,” and in its final decision the Commission took no
 5 position on public interest (i.e., RAND). Ex. 15, *In re Certain Wireless Devices With 3G*
 6 *Capabilities*, Notice of Comm'n Dec. to Review, 337-TA-800 at 3 (Sept. 4, 2013); Ex. 14, *In re*
 7 *Certain Wireless Devices With 3G Capabilities*, 337-TA-800, Comm'n Op. at 40 (Feb. 19, 2014)
 8 (not adopting public interest recommendation). **In the 868 Investigation**, after confirming no party
 9 infringed a valid patent, the Commission's Final Decision stated “Similarly, the Commission
 10 reviews and takes no position on the FRAND issues raised by the respondents concerning their
 11 affirmative defenses.” Ex. 9, *In re Certain Wireless Devices With 3G And/Or 4G Capabilities*, 337-
 12 TA-868, Comm'n Notice at 3 (Aug. 14, 2014).

13 When the Commission orders review of an initial determination (or a subset of it), an initial
 14 determination becomes the Commission's determination only if the Commission expressly affirms
 15 an issue in the Commission's decision on review. *See* 19 C.F.R. § 210.42(h)(2); *Linear Tech. Corp.*
 16 v. *Int'l Trade Com'n*, 292 Fed. Appx. 52, 55 (Fed. Cir. 2008) (when the Commission determined to
 17 review an issue but “ended up taking on position on that issue,” it “effectively vacat[ed] the ALH's
 18 determination” on that issue). The Commission did not affirm or adopt the ALJ's recommendation
 19 of public interest in any of IDC's ITC investigations.

20 Not only are these “initial determinations” now vacated, but they also have no binding effect
 21 to any district court. *Tex. Instruments Inc. v. Cypress Semiconductor Corp.*, 90 F.3d 1558, 1569
 22 (Fed. Cir. 1996) (“ITC decisions are not binding on district courts in subsequent cases brought
 23 before them.”). This Court has precluded reliance on initial determinations because of their
 24 preliminary nature. *See Realtek Semiconductor Corp. v. LSI Corp.*, No. C-12-03451-RMW, 2014
 25 WL 46997, at *1 (N.D. Cal. Jan. 6, 2014) (granting motion in limine to preclude plaintiff from
 26 referencing the initial determination in an ITC action “because of the non-final nature of the ALJ's
 27 decision.”).

28 As a practical matter, [REDACTED]

1 [REDACTED] IDC has [REDACTED]
 2 [REDACTED]. See Dkt No. 162 at 1-
 3 2. Having [REDACTED]
 4 [REDACTED] IDC cannot now rely
 5 on the “initial” determinations in 868, 800 and 613 Investigations. *See Chevron Corp. v. Pennzoil*
 6 *Co.*, 974 F.2d 1156, 1162 (9th Cir. 1992) (privileges may not be used “both as a sword and a
 7 shield.”).

8 Accordingly, the Court should exclude opinion testimony from Dr. Putnam about the IDC’s
 9 ITC 613, 800 and 868 Investigations.

10 **2. Unreliable** [REDACTED]

11 Dr. Putnam conducts a [REDACTED]

 3 the same [REDACTED]: “the average *end*-

 15 that renders the analysis unreliable...renders the expert’s testimony inadmissible,” Fed. R. Evid. 702

17 Accordingly, the Court should exclude testimony regarding Dr. Putnam’s [REDACTED]
 18 [REDACTED]

19 **3. Generalizations Regarding [REDACTED] Is Impermissible Expert
 20 Opinion**

21 Like Dr. Layne-Farrar, Dr. Putnam too provides generalized testimony about [REDACTED]
 22 [REDACTED] that are untethered to the facts at issue here. Federal Rules of Evidence 702 “assign[s] to
 23 the trial judge the task of ensuring that an expert’s testimony is ... relevant to the task at hand.”
 24 *Daubert*, 509 U.S. at 597. The central issue in this case is whether IDC complied with its FRAND
 25 obligations to ETSI, and the analysis of IDC’s licensing program, [REDACTED],
 26 must be viewed through that lens. Yet, Dr. Putnam opines on [REDACTED]
 27 [REDACTED]

28 ⁴ Due to the size of this raw data, only a sampling is attached to this motion for reference. _____

1 First, Dr. Putnam's opines that [REDACTED]

 9 [REDACTED] *Id.* A trier of fact should not be left to
 10 speculate on how they should apply general theories [REDACTED] to this case, and lacking
 11 support, IDC has a clear intention of peppering the record with vagaries so that counsel can argue for
 12 broad, unsupportable speculation. Federal Rule of Evidence 702 permits expert testimony only
 13 where "(d) the expert has reliably applied the principles and methods to the facts of the case." Fed.
 14 R. Evid. 702; *Finjan Inc. v. Blue Coat Sys., Inc.*, 2015 WL 4278270, at *8 (N.D. Cal. 2015) (opinion

16 Similarly, Dr. Putnam identifies a [REDACTED]

 22 [REDACTED]
 23 [REDACTED] Ultimately, Dr. Putnam does nothing to
 24 tie this analysis to ETSI's FRAND obligations [REDACTED] at issue in this
 25 case. *See Daubert*, 509 U.S. at 591 (question is one of "fit" – "whether expert testimony proffered in

 13 in foundation, not based on any expert analysis, and irrelevant to the issues in this case.

 24 opinion cannot be “the product of reliable principles and methods … applied … [reliably] to the
 25 facts of the case.” Fed. R. Evid. 702(c)-(d).

26 Even if Dr. Putnam had the foundation required to draw an opinion (which he did not), his
 27 opinion is inadmissible under other Federal Rules. This case is about the licensing negotiations

19 The Court should exclude Dr. Putnam’s testimony [REDACTED]

20 [REDACTED] 21 5. Economist’s Improper Legal Testimony Regarding [REDACTED]

22 As detailed in Section C.3 above, the Court should exclude Dr. Putnam from testifying about
23 [REDACTED]. In his report, and mimicking Dr. Layne-Farrar,
24 Dr. Putnam interprets [REDACTED] claims of this case. *See,*
25 [REDACTED] *e.g.*, Ex. 7, Putnam RR ¶¶ 14, 52, 89-95, 161, n.185, 194, 229, 359, FRAND appx n.65. At bottom,

 15 help the trier of fact to understand the evidence or to determine a fact in issue...."). IDC improperly
 16 seeks to have its economists duplicate, with the veneer of expert approval, IDC counsel's strained
 17 preclusion argument raised in summary judgement.

18 Finally, Dr. Putnam's mischaracterizations and manipulations [REDACTED]
 19 demonstrate the prejudice that would befall ASUS and confusion inflicted on the jury if these
 20 experts were permitted to testify regarding the Final Award. *See VirnetX*, 2016 WL 4063802, at *5
 21 ("describing a prior verdict before a jury often prejudices a party," "may have an unfair prejudicial
 22 effect when it is discussed in depth with multiple witnesses" and "creates the possibility that the jury
 23 will defer to the earlier result and thus will, effectively, decide [the] case on evidence not before it"
 24 (quoting *Coleman Motor*, 525 F.2d at 1351); *Engquist*, 478 F.3d at 1009–10; *Apple*, 2014 WL
 25 794328, *8-*9 (excluding expert's testimony on settlement because of risk of prejudice was high and

8 D. Dr. Bertram Huber's Improper Opinions

9 IDC offers Dr. Huber as an expert on the ETSI IPR Policy. ASUS moves to exclude Dr.
10 Huber's testimony on issues outside that topic, namely economics, French law, antitrust and ETSI
11 SEP licensing practices because his testimony fails to satisfy the prerequisites set forth in the Federal
12 Rules of Evidence as demonstrated below.

13 1. Dr. Huber Is Not an Expert in Economics, French Law, or Antitrust

14 The Court should exclude Dr. Huber's testimony outside the scope of his expertise, which is
15 ETSI's IPR policy and history. In purporting to rebut ASUS's experts on French law, economics and
16 antitrust, his report strays into areas well outside of that subject matter. *See* Ex. 6, Huber RR pp. 3-4

2 **E. Conclusion**

3 For the reasons stated above, ASUS moves to exclude as improper under FRE 702 the
4 testimony of Dr. Ann Layne-Farrar regarding (1) [REDACTED], (2) [REDACTED]
5 [REDACTED], (3) [REDACTED], (4) [REDACTED]
6 [REDACTED], and (5) IDC's [REDACTED].

7 ASUS also moves to exclude as improper under FRE 702 the testimony of Dr. Jonathan
8 Putnam regarding (1) IDC's ITC Investigations and Initial Determinations, (2) [REDACTED]
9 [REDACTED] (3) [REDACTED], (4) [REDACTED], and (5) [REDACTED]
10 [REDACTED]

11 Finally, ASUS moves to exclude as improper under FRE 702 the testimony of Dr. Bertram
12 Huber regarding (1) [REDACTED]
